

## VNL-3D35C-24

3D bending 35mm wide linear light

Curved surface

24V(DC)

# Built for every environment

---

## Durable for any setting

- Built to last in any environment with IP68 waterproofing and IK10 impact resistance.

## Versatile applications

- Unique 3D-bending flexibility for creative shapes, from luxury cruise ships to architectural facades and high-end interiors.

## Optimal 35 mm width

- Commanding attention from afar, with bold, dot less light that delivers flawless impact up close.

# VNL-3D35C-24-DMX-**RGBW**

---

## **25mm dynamic pitch**

- Fine pixel spacing creates fluid, calm animations. Ideal for subtle gradients and elegant flows.

## **RGBW color mixing**

- Individually control each pixel with vibrant colors and pure 3000K white, fully DMX compatible.

## **Creative freedom**

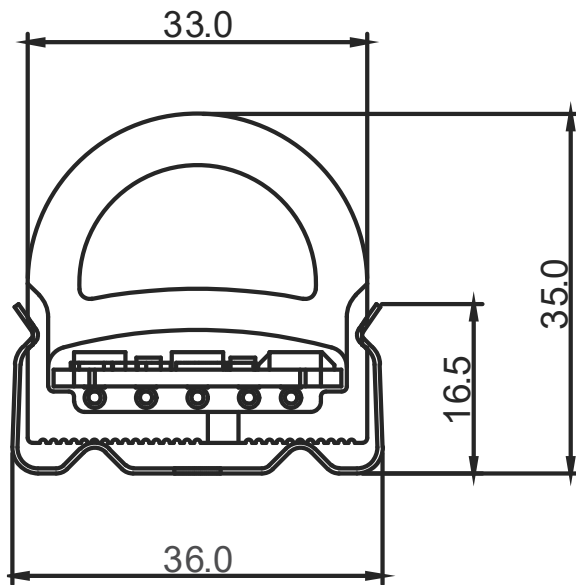

- Bring pixel effects to curves, corners, and complex shapes with unmatched design flexibility.
-

# Installation accessories

## VNL-3D35C-24-SC

- Steel clip
- Length of 30mm

## VNL-3D35C-24-AP

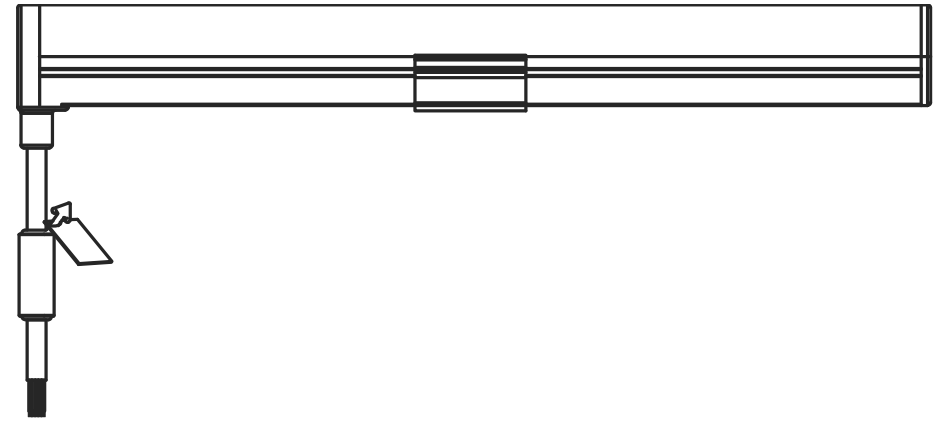

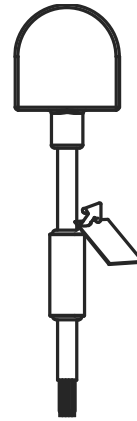

- Aluminum profile.
- Available in lengths starting from 30mm

# End cap options

---

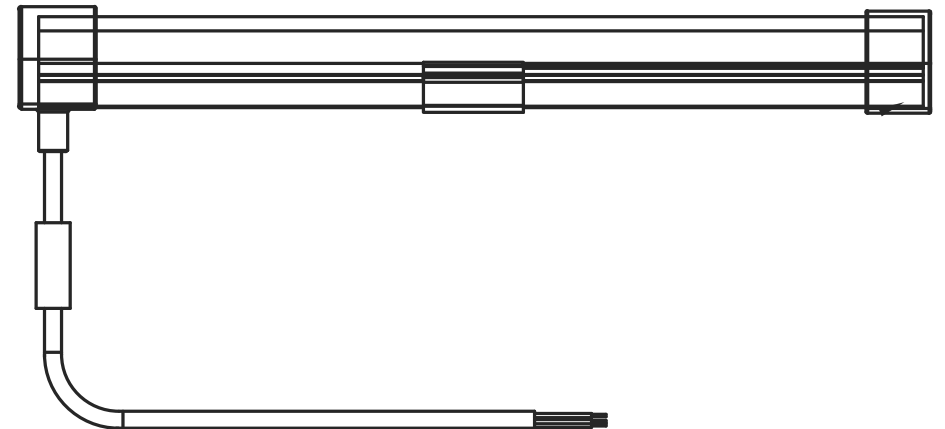

## IP67

Suitable for most use cases. The end cap fits into the aluminum profile

## IP68

Suitable for harsh environments. Best used in combination with steel clip

## Bottom cable exit

- Other cable exits are available on request

Kouterstraat 6, Wevelgem, B-8560, Belgium
